Greetings your honor, im writing to you in Lew of the Covid-19/Corona virus and it's threat to people with pre-existing respiratory illnesses. I suffer from Asthma and am prescribed two inhalers to maintain my everyday Activities. One is called "Asmanex", in which I use to prevent an Attack. It is a Steroid type of Powder. The second is called "ProAir HFA". It is a Albuterol-Sulfate Inhalation Aerosol.

It is my understanding that under the compassionate release situation going on with the Corona virus and at risk inmates housed in f.b.o.p. It is up to my judge to determine if I can be released earlier than my already Scheduled release of 9-30-20 which is in Seventy and some odd days.

I Appreciate your dicission and time in my Consideration during this dangerous time we are going through now, and hope you and your family are Sheltered from this Pandemic

Thank you in advance
